About GreenFaith

GreenFaith is an international interfaith organization and grassroots movement for environmental and climate justice - one of the oldest organizations of its kind.

Because the Earth and all people are sacred and endangered, GreenFaith is building a global, multi-faith climate and environmental movement. We are bringing together people of different religions and creating local GreenFaith groups to change ourselves, our spiritual institutions, and society to protect the planet and create a compassionate, loving, and just world.

In Germany, we operate as the non-profit association GreenFaith e.V. We work together on a local and national level in Germany and are in regular exchange with the international GreenFaith movement.

Our goal is to engage people at the grassroots level for climate justice and organize them through local groups (GreenFaith Circles), continuing education, and networking. Furthermore, we mobilize people of faith and religious leaders through targeted communications and multi-faith climate campaigns.
